

Latest news on European research and development programmes

Tuesday 2 June 2009 at 09.00-12.00

Stockholm University, Campus Frescati, Aula Magna

Stockholm University, Vetenskapsrådet and VINNOVA invite you to an information day on funding possibilities within the EU research and development programmes, and on the latest news about upcoming calls.

During the summer and autumn of 2009, calls for the EU Seventh Framework Programme (FP7) will be published. This information day will be an opportunity to discover new possibilities within the European R&D programmes and targets researchers at companies, authorities, institutes and universities.

PROGRAMME

09.00 – 10.00 **Welcome and latest news**

Which are the most important news within the FP7?
 What does it mean to coordinate a project? What kind of support is available?
 (planning grants, support offices, etc)
 How to influence coming EU work programmes?
 What activities are planned during the Swedish EU presidency ?

10.00 – 10.30 **Coffee and sandwich**

10.30– 12.00 **Parallel seminars**

News and advice with regard to proposals within the different thematic areas within the FP7. JTI's are presented under each main field of study, IMI (Health), Artemis and Eniac (IT).
